

Circles of Care

Right of Refusal to Deny Licensure & Fee Reimbursement Policy Acknowledgement

Circles of Care reserves the right to deny licensure for foster care or adoption at any time during the licensing process.

Foster and Adoptive Parents who apply with Circles of Care apply as potential providers to be licensed by Circles of Care. The licensing process is a "process" that involves many steps and has many requirements. Some of the steps include a home study, training, references, background check and home inspections. Every step and requirement is an evaluation time for Circles of Care to evaluate the applicants to determine if the applicants are a good fit for our agency and can meet the needs of the children we serve. Circles of Care reserves the right to deny potential foster and adopt applicants at any time during the licensing process.

Circles of Care is not responsible for any lost work or wages for the time or effort the applicant spends to go through the licensing process, regardless if the licensure occurs or not.

In addition, as part of the licensing process, there are certain requirements to include: Fire Inspections, Health Inspections and TB testing that incur a cost to the applicants. Applicants are not to schedule or get these requirements that have associated fees, unless specifically instructed to by Circles of Care. These fees will only be reimbursed to the applicant if Circles of Care had specifically instructed the applicants to obtain these requirements. No supplies or repairs that may be required to pass such inspections are paid for by Circles of Care nor reimbursed to the applicant regardless if the applicant is licensed or not.
